PROFESSIONAL SUMMARY

Motivated Junior ML Engineer with 1.5 years of industry experience and a strong academic foundation in machine learning and deep learning. Proficient in Python and TensorFlow for model development. Experience with supervised learning algorithms and basic data preprocessing. Seeking to grow in a data science role with mentorship opportunities.

TECHNICAL SKILLS

Languages: Python, SQL (basic)

ML/DL Frameworks: TensorFlow, Keras, Scikit-learn

Data Libraries: Pandas, NumPy, Matplotlib

Tools: Jupyter Notebooks, Git, VS Code

Cloud: AWS S3 (basic file storage only), Google Colab

Other: Microsoft Excel, PowerPoint

PROFESSIONAL EXPERIENCE

Junior Machine Learning Engineer | DataFirst Startup, Seattle, WA

January 2023 – Present

- Implemented image classification model using TensorFlow/Keras for product defect detection (85% accuracy on test set).
- Preprocessed and cleaned structured datasets for model training using Pandas.
- Assisted senior engineers in building training pipelines for tabular data classification tasks.
- Wrote Python scripts to automate data collection from internal APIs.
- Documented model experiments using Jupyter Notebooks.

ML Research Intern | University Research Lab, Seattle, WA

May 2022 – December 2022

- Assisted in implementing neural network architectures for academic NLP research project.
- Ran experiments on sentiment classification using pre-trained BERT embeddings.
- Prepared literature review summaries on transformer architectures.

EDUCATION

B.S. in Computer Science (Minor: Data Science)

University of Washington, Seattle | GPA: 3.5/4.0 | 2022

Relevant Coursework: Machine Learning, Deep Learning, Data Structures, Linear Algebra, Probability & Statistics

ACADEMIC PROJECTS

- Capstone: Built a news headline classifier using LSTM achieving 78% accuracy.
- Implemented linear regression and decision tree models from scratch in Python.
- Created a Pandas-based data analysis dashboard for COVID-19 dataset (Jupyter).

CERTIFICATIONS

- Deep Learning Specialization – Coursera (2022)
- Google Data Analytics Certificate (2022)
